

Jericho Energy Task Force
December 14, 2016, 7 p.m.
Jericho Town Hall

Task Force Members present: Stuart Alexander, Eric Bishop, Donna Freisinger, Larry Lamb, Phyl Newbeck, Ceilidh Peden-Spear,

1. Icicle Contest

The JETF discussed a schedule for posting information about our icicle contest on Front Porch Forum. We are grateful to Jim Bradley of Caleb Contracting for agreeing to provide a free home energy audit (a \$500 value) as the price for the winner.

2. Winter movies/events

Our first movie will be shown in conjunction with the Chittenden Solid Waste District. *Just Eat It* will be shown at 7 p.m. on January 26 at the Deborah Rawson Memorial Library. Our second movie, Leonardo DiCaprio's *Catching the Sun*, will be on March 16, also at 7 p.m. We hope to follow it with a discussion of proper solar panel siting and maybe a short discussion about heat pumps if there is time.

3. VNRC presentation

The Vermont Natural Resource Council will give talk on carbon pricing on February 16 at 7 p.m. at the Deborah Rawson Memorial Library.

4. Other

- We talked about potentially meeting with the Underhill Energy Committee next month.
- We will plan to have Local Motion's bike commuter workshop in April or May.
- We talked about trying to find ways to promote energy efficiency with those who do not share our political perspective – saving money is one common ground.
- We wished Ceilidh the best of luck at her new internship on a cheese farm in Ryegate. She will be missed.

Our next meeting will be January 11, possibly in Underhill.
